MY PORTFOLIO

I have split this portfolio into two parts, one is to showcase my work as an Interior Designer and one is to showcase my work as a Graphic Designer. The first half of this portfolio is for Interior Design and the second half is for Graphic Design.

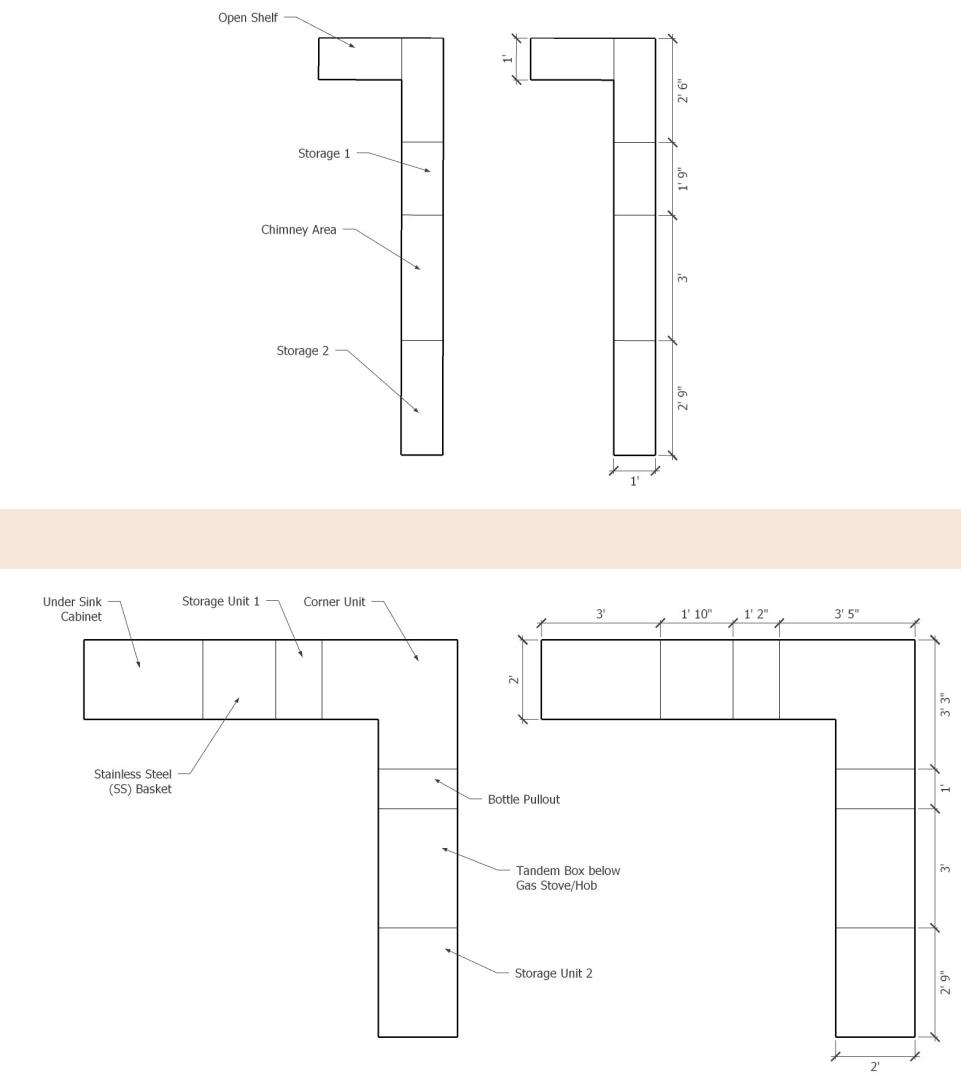

I am also reworking on some of the hypothetical projects that I was given as a student while still in college. I haven't uploaded it here yet since I'm not finished with it. But I will be updating on the project in my Instagram Account (Scan QR code on previous page to check) along with a few other designs.
